Subject: Testimony on HB5752 and HB5753

Dear Committee Clerk Angie Lake,

Please share with Members of the House Local Government Committee.

I am writing to voice my opposition to HB 5752 and HB 5753.

In my view these are unfunded state mandates which will draw public health resources away from critical problems such as PFAS and Hepatitis A.

Regards,

Wes Nakagiri
County Commissioner-elect
Livingston County – District 3
